

Ranger Primary

Giving you time to teach

Managing your network has never been easier

Ranger Primary allows you to forget about complex network management tasks that detract from valuable teaching time.

Ranger Primary simplifies and enhances a basic Windows network, making it easier and quicker for you to control, customise and manage your computers.

It saves precious time and effort while providing you with piece of mind, and your pupils with the best possible learning environment.

Everything you need for a simple reliable network...

Ranger Policies

Tailor the look and feel of your Windows environment to meet the needs of specific age groups. For younger pupils, you can provide a colourful and simplified interface, with large, easy-to-use buttons and limited access to applications. Older children and staff can be given a standard Windows desktop consistent with their home computers.

Web Tracking

With Web Tracking you can monitor which websites users visit, making it simple for you to protect pupils and prevent internet misuse.

Active Security

Quickly set different levels of security for different user groups. PCs can be "locked down" to prevent accidental or deliberate security breaches.

Ranger Account Manager

Automatically create user accounts, home directories and profiles. Ranger Primary simplifies the standard Windows operating system, making network management tasks easier.

Ranger RollOut

Save time by remotely installing applications across the network, without the need to visit each PC or laptop.

Ranger React

Easily trigger automatic actions, such as displaying an appropriate year-group message when a particular pupil logs on. Ranger React can also be used to schedule tasks to occur automatically, such as the shutting down of all PCs at the end of the day.

Features

- Designed specifically for primary schools
- Simple to install and easy to operate
- Works alongside all Microsoft server operating systems
- Supports Windows 7, Vista and XP
- Requires no new hardware

Benefits

- Saves time and frees up teaching staff to focus on teaching
- Monitors PC use and web access, so you can stay in control and protect pupils
- Makes it easy to configure, customise and manage your primary school network
- Enables you to tailor the look and feel of your Windows environment for different age groups and abilities
- Quick and easy software installation

Your rules...

| Ranger Primary | Fully Managed | Ranger | Vanilla / DIY |
|---------------------------------------|---------------|-------------|---------------|

| Requires advanced technical skills | No | No | Yes |
| Installed by school | No | Your choice | Yes |
| Enhanced teacher tools | Yes | Yes | No |
| Retains Windows look and feel | No | Yes | Yes |
| Predefined network and user templates | Yes | Yes | No |
| Management reporting | Yes | Yes | No |
| Wide choice of modules | No | Yes | No |
| Wide choice of support partners | No | Yes | Yes |
| High set-up cost | Yes | No | No |

Your choice

When it comes to specific requirements for your school, you're the expert – we just provide you with the tools to help you manage your network in the most effective way possible.

Ranger offers a comprehensive portfolio of products to simplify and enhance your basic network, and you're free to select the best combination to suit your specific needs.

So there isn't one 'right' way of doing things – just the right choice of partner..

Your views

"Ranger software has helped us overcome two major problems with networking in a Primary school. It gives us the ability to provide a simplified interface for the youngest children to work with. Plus we are also able to customise many of the processes - which have already been simplified - without calling out experts to do it for us."

Ben Holdsworth, Headmaster, St Mary's R.C. Primary School, Greenwich

"We chose Ranger for its flexible approach to network management and efficient technical support. It provides a friendly user interface for manipulating network security and the Remote Access module is a great boon for teacher control in the classroom."

Janice Vassie, ICT Network Manager, Abbot's Hill School, Hemel Hempstead

"In the modern world of IT, it is unusual to find products which work 'as advertised' or which are properly supported, when users' fingers hit the wrong keys. Ranger is to be congratulated for providing both."

Colin Thomas, IT Network Administrator, Rossall School, Lancashire
