

Ranger for Networks

Giving you flexible control of ICT

Security and efficiency to maximise resources

Ranger for Networks provides management and security software which sits alongside your current Microsoft operating system, enabling you to run a secure, flexible and cost-effective network, without compromising users' performance or productivity.

By streamlining and automating routine ICT tasks and administration, Ranger for Networks can bring significant time and cost savings to your school. As well as freeing up technical staff from repetitive daily tasks and bringing significant efficiency savings, it lets your teachers focus on teaching.

All the tools you need to improve your network's efficiency...

Ranger Account Manager

Administer users in a fraction of the time by automatically creating user accounts, home directories and profiles.

LAN Ranger

View a real-time report of who is doing what on the network at any time. The Ranger server is able to run reports on user activity to enable you to monitor security violations on any part of the network.

Ranger React

Easily schedule tasks such as the automatic shut down of PCs at the end of the day. Ranger React can also be used to trigger automatic responses to specific events. For example, you could display a welcome message when a pupil logs on to the network, or take a screen shot when a user runs a particular programme.

Ranger RollOut

Save time by remotely installing applications on workstations across the network, without the need to visit each PC or laptop.

Web Tracking

With Web Tracking you can monitor and report on which websites users visit, making it simple for you to track trends and prevent internet misuse.

Ranger Policies and Active Security

Quickly set different levels of security for different user groups. PC configuration becomes dynamic, changing according to individual user's profiles.

Features

- Designed specifically for education
- Simple to install and easy to operate
- Works alongside all Microsoft server operating systems
- Supports Windows 7, Vista and XP
- Requires no new hardware
- Scalable for all types of network

Benefits

- Saves time and frees up resources for more strategic projects
- Simplifies repetitive and time consuming tasks for easy and effective network management
- Helps you tailor your network to the school's individual requirements
- Displays a real-time view of what is happening across the network, so you can stay in control at all times
- Users are given an appropriate interface for their role and age

Your rules...

Ranger for Networks	Fully Managed	Ranger	Vanilla / DIY
Designed specifically for education	Yes	Yes	No

Predefined network and user templates	Yes	Yes	No
Management reporting	Yes	Yes	No
Wide choice of modules	No	Yes	No
Wide choice of support partners	No	Yes	Yes
High set-up cost	Yes	No	No

Your choice

When it comes to specific requirements for your school or college, you're the expert – we just provide you with the tools to help you manage your network in the most effective way possible.

Ranger offers a comprehensive portfolio of products to simplify and enhance your basic network, and you're free to select the best combination to suit your specific needs.

So there isn't one 'right' way of doing things – just the right choice of partner...

Your views

"For us, Ranger for Networks is like having another full-time member of staff – it's invaluable."

Graham Lillywhite, Network Manager, Falmer High School, Brighton

"The tools within Ranger for Networks really help save us time and money."

Sid Bains, Network Manager, Bradfields School, Chatham

"The level of security provided, together with its ease of configuration, has allowed Ranger for Networks to meet the very stringent requirements laid down in our network usage policy."

Colin Thomas, IT Network Administrator, Rossall School, Lancashire

"Ranger, in all of its forms, has been a key element in the way we have moved forward within the school's 'Building Schools for the Future' refurbishment project."

Steve Smith, ICT Network Manager, Oxclose Community School, Tyne and Wear
